# Marmite360

March 14th 2026

Marmite360 will step foot onto Zagreb's soil for the first time during the +Gamma anomaly in March 2026. Although it's a place which was on his bucket list for quite some time, he never got around to it. Until now.

Warning: do not expose this card to Simulacra. Do not fold, bend and/or use as an ice scraper.
